The French revolution was a period of social and political upheaval in France and its colonies that lasted from 1789 until 1799. It was partially carried forward by Napoleon during the later expansion of the French Empire. Inspired by liberal and radical ideas, the revolution profoundly altered the course of modern history, triggering the global decline of absolute monarchies while replacing them with republics and liberal democracies. Historians widely regard the revolution as one of the most important events in human history.
