5 (a) Study the following passage carefully and answer the 10  
questions below it:

A sanctuary is a protected place for animals. Since industrialization, forests have started vanishing. The Government, after very exhaustive surveys, notified some forest areas as protected areas for wild animals. India has more than 100 National Parks to protect the wild life: Wild animals often live on other animals' an ongoing struggle for survival, so all the species need safe hiding places. Wild life must be kept away from human reach. Hunting Wild life had been a hobby. However, we must not forget that Wild life is a great advantage to environment. Birds and animals are studied for certain specific purposes in science. A sanctuary provides an opportunity to carry out certain botanical and zoological researches in science. Thus, National Parks, Wildlife Sanctuaries and Protected Spaces are must to conserve the natural world.

- (1) What is a sanctuary?
- (2) How many National Parks does India have?
- (3) What is an ongoing struggle?
- (4) Give the meaning of 'to conserve'.
- (5) Give the title to the passage.

(b) Make a precis of the above paragraph. 10
